

**Our Vision:** To achieve and maintain a reputation as the leader in controls engineering and support through quality design, products, and services.

**Our Mission:** To provide original equipment manufacturers (OEM's) and end users with top-quality controls engineering solutions.

### Our History

After having been in the production world as

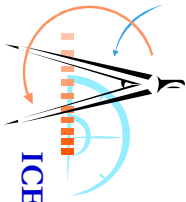

- a Controls Engineer with GM
- a Designer for an OEM tool builder
- an Application Engineer with an electrical distributor

ICE president Earl Whitsel saw the need for a System Integration House. In 1986, Whitsel founded Innovative Controls Engineering, Inc. to meet the needs of both the OEM and the End User by working with its distributors to correctly apply today's advanced controls components.

ICE's 6,250 sq. ft. facility located in Lebanon, Ohio

Over the years, ICE has developed a substantial customer base by providing quality services, delivered on time, to every customer. As a result of the superior work they provide, ICE continues to grow, and now employs a quality team of Controls Engineers and Panel Builders. Each member of the ICE Team is committed to the standard of "Excellence in Service".

ICE is proud to be an Authorized Integrator for Crescent Electric.

# INNOVATIVE CONTROLS ENGINEERING

## INDUSTRY LEADER

Our proven track record in the areas of:

- Automotive
- Pharmaceutical
- Surgical Supplies
- Material Handling
- Waste Water Treatment
- Food and Beverage
- Paper Products
- Part Machining
- Packaging

make us exceptionally well equipped to handle *your* company's individual needs.

*Heat Treat Chiller Controls*

*Various Material Handling Automation*

## CUSTOMIZED SOLUTIONS

We are a full-service Integration House that can provide you with:

- Electrical Controls Design
- Electrical Panel Fabrication
- HMI Screen Development
- Robotic Cell Control
- PLC Programming
- Hydraulic Controls
- Pneumatic Design
- Motion Control
- Vision Systems

From concept and design to installation and runoff, we work with *your* team to customize a solution for your specific control needs.

**ISO 9001 Certified • UL 508A Certified**

## EXCEPTIONAL SERVICE

By combining our unmatched quality and service with an ability and willingness to create custom-designed solutions, we have become the first choice of customers who demand performance from their suppliers.

*Food & Beverage and Sanitary Washdown Applications  
UL Certified*

Contact us today to find out how the ICE Team can go to work for you.
